

The FM station AIR1 is the only radio program I listen to, either at home or in the car. It is my only link to Christian information on the national level and broadcasts the only radio music I consider worthy of listening to. The mountain community I live in has very limited AM/FM access because of the topography of the area. Losing AIR1 would be a great loss to the Christians here who have few other options to choose from of this kind. The effect of AIR1 is profound in providing counsel to troubled individuals who tune in. I believe it even plays a small role in reducing crime. It is so important to me that I financially have supported AIR1 to keep it on the air. I urge you not to sacrifice AIR1 to a LPFM interloper, which would not replace the unique service and entertainment AIR1 provides.
